	NC	CUMWHINTON CURRICULUM
<b>Finding out</b> (Facts & knowledge)	Use maps and atlases, including OS maps, to introduce four figure grid references.	Refer back to map work done previously - compass directions and OS symbols - introduce 4 figure grid references and explain how we would locate an area on a map using a 4 figure grid reference. Why are these important?
<b>Using</b> (Applying & analysing)	Use fieldwork to observe, measure and record the human and physical features of the local area.	Map out Cumwhinton Village - local council need a new map of Cumwhinton village - Children walk around Cumwhinton village in groups of 4/5 (with an adult with each group) deciding what a map of the Cumwhinton village needs to include and taking pictures. When back in the classroom children design sketch maps on grid paper and show their understanding on map drawing/grid references.
<b>Concluding</b> (Evaluating & summarising)	Use fieldwork to observe, measure and record the human and physical features of the local area.	Children present their maps to the class explaining why they chose to include the key features they have on their maps of Cumwhinton village.
